CITIZEN'S EAST BETHEL CORRESPONDENT WRITES FROM LONG BEACH, CALIF.

Mrs. David Foster

On my trip west in December we left Boston in cloudy weather. As we went south to New Orleans we nan into drizzle and the plane bucked strong head winds all the way. This made us about an hour and a half behind schedule. I had to change planes in New Orleans and had planned to take an hour or so to tour the city as I was supposed to have a three hour wait here. Where we were so late, I didn't have the chance which was disappointing. My plane to Los Angeles arrived in California at 9:30 p. m. where my sister and niece were waiting for me. Fortunately it wasn't foggy so we arrived on time. It quite often is very foggy and the planes have to go other places to land.

The Art of Living
There's a special art to living. And you need a frame of mind That can overlook the showers. Til the sun begins to shine. To develop to the fullest. You have got to understand, The things don't always function. In the way that they were planned. There's a special art to living, Ard the challenge must be met, But the longer that you tay it,

The total cost of the project is \$1,544,983. WCBB is requesting \$1,031,983 from PTFP and proposes to match this requested grant with \$513,000. A copy of the complete proposal is on file in our offices at 1450 Lisbon Street, Lewiston, Maine.

In the event that you have any There's a special art to hiving, And the challenge must be met, But the tonger that you try it, Why the better you will get. Don't waste your time in waiting For the world to come to you. You have to climb the mountain, To appreciate the view. -Grace E. Easley

Why All the Changes? WE ARE GROWING!!

Due to the continued support of the communities served, we have grown 40% in assets over the past two years. Growing pains as well as continual changes in banking laws and regulations have forced us to add people to our staff and expand the use of space as we broaden the services that we offer to you, our customers.

New faces are appearing, ready and willing to help you. The "old" faces are still here although maybe not where you can see them easily. Never the less they are still working for you.

We are endeavoring to make your bank better than ever as we try to give you the customer service and money market advice you well deserve.

One way we hope to improve our service is by the installation of an on-line computer system throughout the bank and its branches. We're convinced this system will aid us in many ways to improve the bank's operations. This will be new to us as well as to you, and we hope you will bear with us through the initial change-over scheduled for mid-March. We are all excited about it as we know it will allow us to better serve you in the future.

All these changes and additions are being made for you, the customers. Your deposits help us grow so we can support the communities served in their efforts to survive these trying economic times.

As a mutual savings bank, Bethel Savings is your bank. Our depositors are owners and have an interest in seeing that their neighborhood bank thrives. If we continue to work together through these changing times, we will all benefit.

COME IN AND SAY "HELLO"
